

CABINET LIGHTING

Bridgewood
CABINETRY

Illuminate your
Bridgewood Cabinetry
inside and out.

We offer a range of LED lighting options tailored to complement your Bridgewood cabinets, whether you've chosen face frame or frameless construction.

Dimmable, with Tunable color temperature, you can choose to have your lighting controlled by zones with wireless remote control, smart phone app, or voice activated smart speaker.

You can also choose to have the interior lighting in your cabinets activated automatically as drawers and doors open, making everything inside easy to find, even in subdued room lighting.

Bridgewood cabinetry with accent, interior and task lighting will help your home function beautifully.

- A. **ATOM TW** LED Puck Light , Tunable White

ADVANCED LED TECHNOLOGY

- Designed for long life with up to 50,000 hours of operation.
- 5-year warranty on lights and drivers
- Independent lights are easily replaced.
- 24V technology provides even power distribution up to 24 feet. Longer lighting runs with fewer drivers than 12V systems.
- 280 diodes per meter provide uniform light without any visible dot pattern.

FIVE YEAR WARRANTY
